*Pay-What-You-Can

What if we could move back or leap forward in time?

What is time? A line, a circle, a hangman's noose? *Einstein's Dreams* takes an imaginative look at the nature of time. This adaptation of Alan Lightman's cult novel weaves imagery, movement, music, and language into an exploration of time and space—the final frontiers—and the mind of Albert Einstein, the man, the myth, the dreamer.

Mainstage Theatre

Arts Center, 2400 East Kenwood Boulevard on the UWM campus.
