

UWM THEATRE presents

LAB/WORKS 2008-2009

Lab/Works focuses on the heart and soul of theatre: acting. Without elaborate sets and costumes, Lab/Works showcases our acting students doing what they do best, in established plays as well as in thought-provoking new work.

ACCIDENTAL DEATH OF AN ANARCHIST

By Dario Fo

Directed by Rebecca Holderness

March 25-29, 2009

This modern masterpiece by Nobel Laureate Dario Fo probes the mysterious death of an anarchist who falls from a window while being interrogated by officials. Beneath the sharp satire and physical comedy lies a timely question: just how far can we go in the war against terror?
