Subject: **Vassar shoot this past summer with Rebecca**

Dean Bucker and Dean Yeo

Thank you both for the opportunity this summer to work with Rebecca Holderness on the Ms Julie film. Our students really enjoyed the experience and they learned a great deal about the "real" production world.

I am proud to say our students were great at adapting to the challenges during a production.

Rebecca Holderness did a wonderful job directing the film and making sure each student was on board for every scene. She put forth a gallant effort considering the schedule. Her positive influence on the students will always be remembered.

This was a great team building experience for the students. They welcomed the opportunity and they created a new network of peers on the easy coast. Because of their efforts, two of our students that worked on the Ms. Julie film went on to Philadelphia to work on another production. They are returning today from that shoot.

Thanks again for the opportunity.
